

MEAT AND BACON PRESSES 10S

Meat and Bacon Presses Servo Flex Presses

The 10S Servo press is designed for automatic operation with 4 individual servos controlled by Shapetec™ press technology which secures the perfect compression and automatically flexes the height, based on the individual thickness of the product to be pressed.

- No hydraulics or cooling water.
- Reduce operating cost & sanitation concerns.

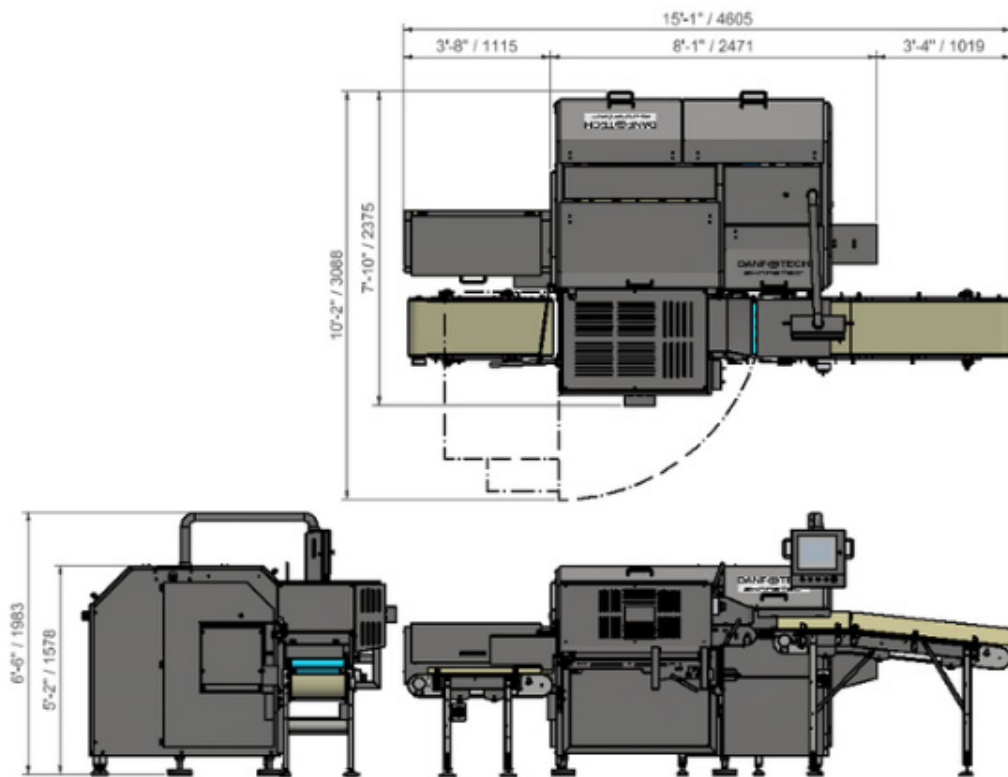

Pressed product yields a higher percentage of #1 slices due to the 4 directional Shapetec™ compression controls. Automatic conveyors, with custom length, load and discharge frozen bellies and integrate with existing production lines. The 10 S Servo press comes with both in-feed and discharge conveyors which can be integrated into a delivery form freezer as well as hand off to slicer or similar equipment.

10S in Numbers

- Up to 12 cycles per minute.
- Press chamber length at 1040mm x 406mm x 120mm (41" x 16" x 4,7").
- 41" to press the longest units at 1016mm / 40".
- Up to 20mm / .75" automatic flex.
- Quick toolless die change in less than 5-7 min.
- 380V-460V x 3 phase 50Hz or 60 Hz.
- 80 Amps.
- Air pressure @ 100PSI or 7 bar.

10S Features

- All Servo operated.
- No Water + No Hydraulics = No Contamination.
- Largest & longest press chamber of any press in the industry.
- Intelligent Shapetec™ Press Controls for customized compression control, wrinkle reduction, optimal shape, and maximum yields.
- 4 Directional pressing for better shape and yield opportunity.
- Remote electrical cabinet, installed in dry area.
- No water contamination.
- Allen Bradley PanelView touch screen controls with visual troubleshooting assistance.
- Maintenance check list with sign-off installed.
- CE approved.

Danfotech produces, installs, and services a wide range of machinery and specialized equipment for the food processing industry: bacon presses, defrosting lines, massaging tumblers, ham production lines, tenderizers, and loading/unloading systems built around cook tanks or ovens.

Additionally, Danfotech also delivers column lifts for Vemag trolleys and plastic tubs, as well as swing loaders for plastic tubs and trolleys.
